---

Stephen:

In light of the fact that October 28 interim deadline is approaching, I need to know if all tankage will be cleaned and gas freed by that date. If not, I need to be notified that this date will be missed so that EPA can determine if it intends on formally extending this completion date. Whether EPA extends this date or not, EPA expects that the work continue as expeditiously as possible to complete. Please remember that the final deadline to complete the removal action is December 31, 2011.

Thanks

Gary Moore

Attached is the weekly report for the Falcon Refinery. In case you think you had a bad day today I included a picture of the work being performed in Tank 10.
